

# THE BESOM in Taunton

sweep away suffering

## PROJECT No. 270 - PROJECT IN TAUNTON

A key worker at Liverty (previously Knightstone Housing) contacted Besom to ask if we could provide some help for a young woman with mental health issues, whose home had become cluttered, neglected and overwhelming for her. Two members of the Core Team, from St James and Taunton Vineyard churches, visited her home on three occasions to help dispose of rubbish, tidy and clean in the kitchen, lounge and bedroom.

Over the time we spent there the recipient became more relaxed and at ease with our presence, chatting with us increasingly and seeming to enjoy our company. She expressed real pleasure at the difference we were able to make in her home and on the return visits was keen to show us, with pride, how she was keeping it clean and tidy. It was a pleasure to spend time with her and see how much she was beginning to enjoy her surroundings. Her key worker too expressed her thanks and said how the project had positively impacted the recipient's wellbeing – such a blessing!
