

THE BESOM in Taunton

sweep away suffering

PROJECT No. 274 GARDENING IN TAUNTON

This work was phase two of a Besom gardening project, which was started in 2017. Phase one was undertaken in November and it was agreed that a return visit should be made during the spring, once the weather was better. Consequently, a team of 14 willing helpers, including some young people, from Taunton Vineyard Church arrived to finish the job on a sunny Sunday morning when the church's regular meeting venue wasn't available.

The project involved clearing, weeding and strimming in the back garden, weeding down the side of the house and mowing in the front garden. It went very well and we pleased the recipient and the neighbours, who brought round drinks for the team! The whole team was present during part, or all of the day, and we were off the site by mid afternoon, having made a trip to the tip at lunchtime.

The recipient enjoyed the company and was looking for more! One of the team took the opportunity to share about the Vineyard church with one of the neighbours and invited her to come along.
