sweep away suffering

PROJECT No. 275 GARDENING IN WELLINGTON

A request had been received from Adult Social Care for some help with the garden for a disabled lady and her young son in Wellington.

A team of three people from Living Light in Wellington took on the project and arrived at 9.00 am on a Saturday morning to start work. The project involved decreasing the grass area so that care workers can maintain the grass more easily. Approximately 15 square metres of turf was removed and the border was planted with some nice perennials and mulched with bark chip.

By 3.00 pm the work was complete and should result in the garden being much more practical and pretty. The mum was really happy and, when the plants grow, will be even more amazed at the transformation!
