

THE BESOM in Taunton

sweep away suffering

PROJECT No. 281 GARDENING IN TAUNTON

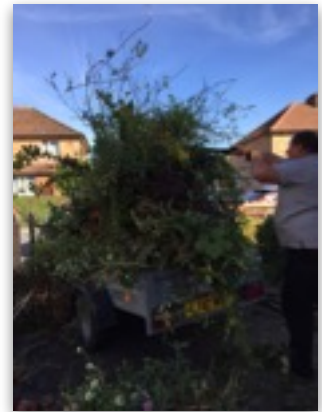

Adult Social Care in Taunton had contacted Besom to ask if we could provide a team to carry out a gardening project. This resulted in four of us from Riverside church coming together to clear out the recipient's garden, which was very overgrown but had once been very nice, with several reasonable shrubs.

We unearthed all sorts of "treasures", including countless old pots, all of which we were able to remove, and also a path which hadn't been seen for some time! The garden debris that resulted was considerable (as the picture of the trailer will attest!).

We could not have managed without the trailer, which we filled twice and several full dumpy bags also made their way to the tip.

The recipient's case worker and her lovely neighbour helped as well, with the neighbour staying with us all day, which was such a blessing.

The recipient, once a proud gardener, is no longer able to look after her garden, so it was lovely to leave her sitting happily on a deck chair in the sunshine - on the newly uncovered area of patio - looking out over her "revived" garden!
