

THE BESOM in Taunton

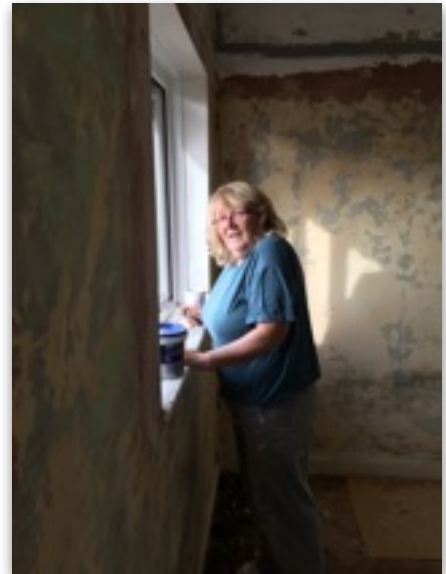

sweep away suffering

PROJECT No. 284 DECORATING IN TAUNTON

Halcon One Team contacted Besom to ask for some decorating help for one of their residents. The recipient has lost around 90% of her eyesight and is cared for by her brother-in-law, who had recently broken his arm.

A team from Riverside Church took on the project, which involved tackling the large front bedroom. We removed 50 year-old wallpaper to reveal rough and uneven walls. Before we started some work was carried out in advance during the week, to make good some plaster, however still more making good was needed when the paper came off.

After stripping off all the paper we put up good quality lining paper, caulked all the joints and tried to rescue the joinery (which had been attacked by the cat!) with filler and primer before repainting the ceiling, all the joinery and the walls. Both the recipient and her brother-in-law are widowed and have to be the nicest and most appreciative people you could ever meet! They were both delighted with the finished job and their appreciation made it worth all the time and hard work.
